

Business Intelligence Sales Profile

Source: analytics_test_data.csv

Timestamp: 2026-07-26 22:43:05

Dataset Quality: 100/100

Metric	Value
Total Rows Count	20
Total Columns Count	3
Null / Missing Cells Value	0

Executive Summary

This report provides a business intelligence breakdown of the uploaded dataset.

Key Business Insights

- High concentration of metric values detected.
- Perform validation checks on missing logs.

Important Numeric KPIs Summary

Column	Average	Max	Min
feature1	10.45	20.9	0.0
feature2	47.5	95.0	0.0
target	76.0	152.0	0.0

Trend & Correlation Analysis

Basic flat trending profile observed.

Operational Recommendations

- Conduct routine cleaning audits.
- Automate data collection validation checks.

Potential Future Risks

- Risk of high missing ratios if collection pipeline is unmonitored.

Conclusion

The dataset shows healthy quality characteristics suitable for downstream modeling.
